

# HEALTH DISPARITIES CALCULATOR (HD\*CALC): A TOOL TO EVALUATE AND MONITOR HEALTH DISPARITIES

CRCHD Professional Development Workshop  
June 8, 2015

Antoinette Percy-Laurry, DrPH, MSPH  
National Cancer Institute

# NATIONAL GOAL TO ELIMINATE HEALTH DISPARITIES

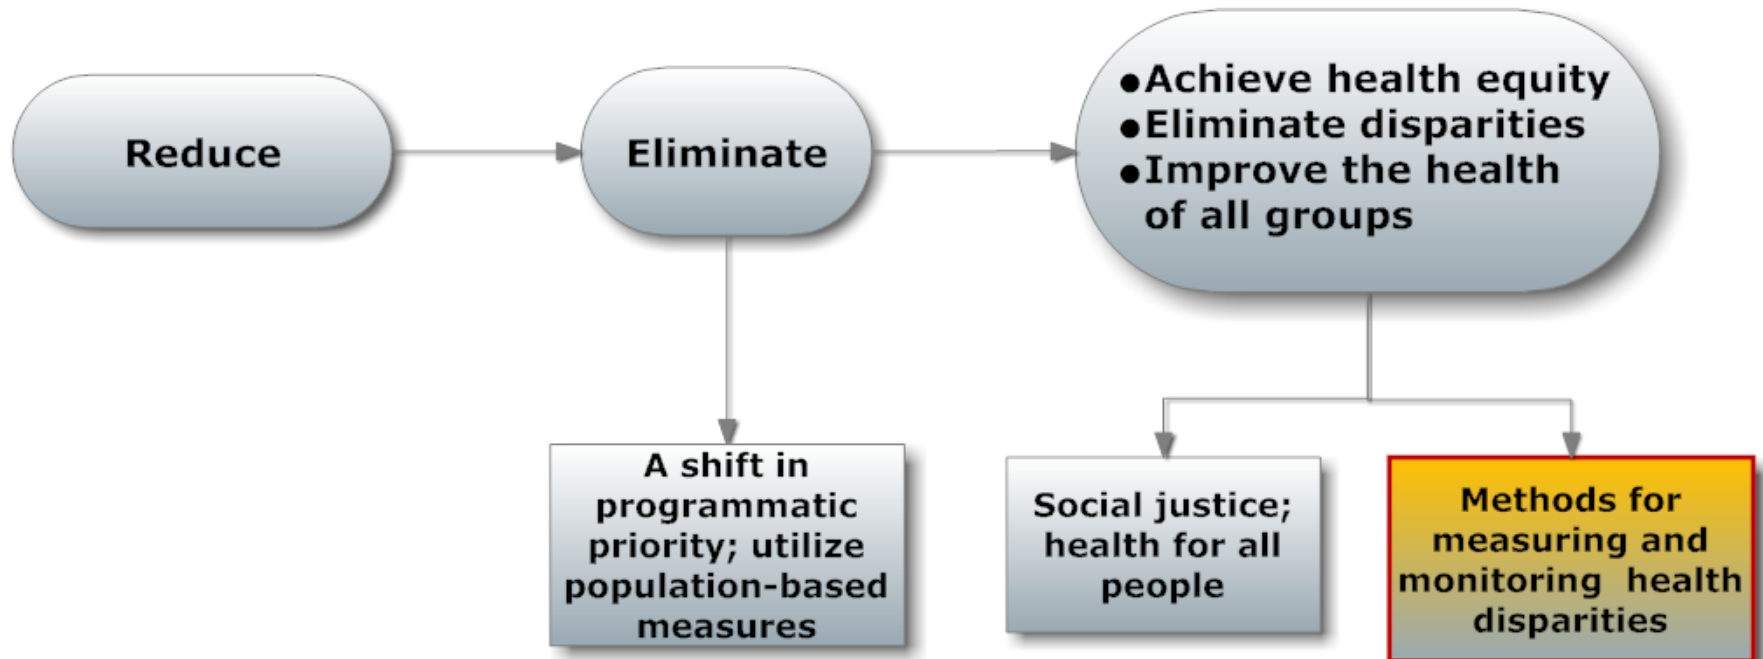

## Eliminate Health Disparities

A *Healthy People* Overarching Goal

2000

2010

2020

# WHAT IS HD\*CALC?

- Statistical software freely available at:  
<http://seer.cancer.gov/hdcalc/>
- Extends work published in 2005 & 2007 NCI monographs
- Generates multiple measures of disparity after importing data into the calculator software
- Accepts imported data (cross-sectional and trend data categorized by disparity groups)
  - Statistics may be calculated by NCI's SEER\*Stat software or any software (HD\*Calc will import text or csv files)

# WHAT CAN HD\*CALC DO?

- Compare different measures of disparities by race/ethnicity, SES and geographic area quickly and accurately
- Graphically presents trends in data
- Easily export tables and graphs

# HD\*CALC HEALTH DISPARITY MEASURES

**Summary Table of Advantages and Disadvantages of HD\*Calc Health Disparity Measures**

Disparity Measure	Symbol	Absolute or Relative	Reference Group	All Social Groups	Reflect SES Gradient	Social Group Weighting	Inequality Aversion Parameter	Graphical Analogue
<b>Social Group Disparity</b>								
<b>Absolute Difference</b>	<i>AD</i>	<b>Absolute</b>	Best	No	Yes	No	No	Yes
Relative Difference	<i>RD</i>	Relative	Best	No	Yes	No	No	Yes
<b>Slope Index of Inequality</b>	<i>SII</i>	<b>Absolute</b>	Average	Yes	Yes	Yes	No	Yes
Relative Index of Inequality	<i>RII</i>	Relative	Average	Yes	Yes	Yes	No	Yes
Index of Disparity	<i>ID<sub>isp</sub></i>	Relative	Best	Yes	No	No	No	No
Relative Concentration Index	<i>RCI</i>	Relative	Average	Yes	Yes	Yes	Yes	Yes
<b>Absolute Concentration Index</b>	<i>ACI</i>	<b>Absolute</b>	Average	Yes	Yes	Yes	Yes	Yes
<b>Between Group Variance</b>	<i>BGV</i>	<b>Absolute</b>	Average	Yes	No	Yes	Yes	No
Theil Index	<i>T</i>	Relative	Average	Yes	No	Yes	Yes	No
Mean Log Deviation	<i>MLD</i>	Relative	Average	Yes	No	Yes	Yes	No
Kunst-Mackenbach	<i>RII<sub>KM</sub></i>	Relative	Best	Yes	Yes	Yes	Yes	Yes

<sup>a</sup>All those better off.

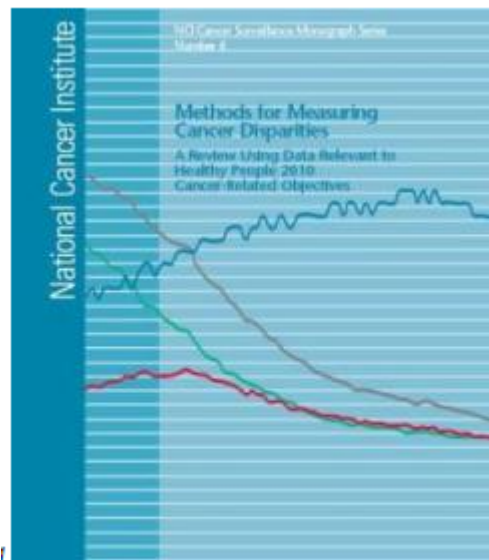

<sup>b</sup>In the case of regression-with grouped data.

2005

Methods for Measuring Cancer Disparities:  
A Review Using Data Relevant to Healthy  
People 2010 Cancer-Related Objectives

2007

Selected Comparisons of Measures of  
Health Disparities: A Review Using  
Databases Relevant to Healthy People  
2010 Cancer-Related Objectives

# HD\*CALC AS AN EXTENSION OF SEER\*STAT

- Surveillance, Epidemiology, and End Results (SEER) Program
  - U.S. population–based cancer registries
    - Diverse racial/ethnic and socioeconomic populations
    - SEER 18; 28% percent of the US
  - Managed by the National Cancer Institute
  - Established in response to National Cancer Act of 1971
  - Began collecting data on cancer cases January 1, 1973
- SEER\*Stat is a software tool to access SEER research data
- SEER data can be imported into HD\*Calc
- HD\*Calc output is compatible with Joinpoint

# SUMMARY

- HD\*Calc can be used as an extension of SEER\*stat or a stand alone
- HD\*Calc can enable researchers to more fully explore their own data and to understand the implications of different measures
- Choice of disparity measures will have an important impact on conclusions
  - Scale of measurement
  - How much to weight the data
  - Reference level
- Monitoring health inequalities requires both precise measurement and value judgments
  - A suite of health inequality measures is necessary to provide a complete description of the magnitude of inequality

# HD\*CALC DEMONSTRATION

## ➤ Training webinar

- Live Demonstration of HD\*Calc
- PPT Presentations
- Recordings and Transcripts

## ➤ Technical assistance: [hdcalculator@imsweb.com](mailto:hdcalculator@imsweb.com)

## ➤ Recent Publication

- American Journal of Public Health
  - Statistically Speaking:  
Breen et al., 2014, Health Disparities Calculator: A Methodologically Rigorous Tool for Analyzing Inequalities in Population Health

# ACKNOWLEDGEMENTS

- National Cancer Institute (NCI)
  - Division of Cancer Control and Population Sciences (DCCPS)
  - Center for Reducing Cancer Health Disparities (CRCHD)
- National Institute of Minority Health and Health Disparities (NIMH)
- Collaborators
  - Information Management Services (IMS)
  - John Lynch, University of South Australia
  - Sam Harper, McGill University

*Thank  
you*
